INTRO: C/Em/Am/AmG/F/Em/Dm/G (2X)

C **Em**

I must've died every day for a year

Am **AmG** **F** **Em/Dm/G**

The way I died last night

C **Em**

I must've cried a million tears

Am **F** **G**

For every tear I cried last night

Am **G**

But you never let on

Am **G**

And I would just play along

F **Em** **Dm** **G**

Till I began to feel that something was wrong

C/Em/ Am/AmG **F** **Em/Dm/G**

Chorus: You left me no explanation

C **Em/Am**

The road was empty

AmG **F** **Em/Dm/G**

There was no destination

Dm **Em** **F** **G**

What is the password into your heart?

There isn't any long time

Like the long time of a sleepless night

There isn't any waiting

Like waiting for the time to be right

But you never let on

And I would just play along

Till I began to feel that something was wrong (cho.)
